GET IN THE CAR
If it's a hot mess, take a few minutes to do a quick clean up...like you care!

GROUND RULES

- Driver picks a number between 10 and 20 – this is how many times the penny gets flipped.
- Passenger flips the penny – Heads is right, tails is left.
- Driver pulls out of the driveway and turns the direction the penny decides.
- Every time you come to an intersection, the passenger flips the penny and the driver turns the corresponding direction.
- Once you get to the last flip for the number chosen, stop.
- Get out of the car where you are and make a date on the spot!

SPICE IT UP

- Give the car a good cleaning & spray it with some air freshener – or better yet, get it detailed – before your penny date.
- Grab a blanket or beach chairs and put them in the trunk so you're prepared for an outdoor destination.
- Create a playlist of songs from when you were dating and play them while you drive.
- If you really want to be romantic, use a penny minted in the year you were married.
